RESOURCE LIST

DECONSTRUCTION SERVICES

Deconstruction is a cost saving alternative to traditional complete demolition by recycling, reusing or donating materials for tax write offs, instead of disposing them in landfills. The advantages of deconstruction may include tax deductions for material donations, cost-savings by reusing materials, preservation of vintage architecture, and avoidance of city fines and permit delays.

Salvaged items in working condition, such as double-pane windows, lighting fixtures, sinks, cabinets, ceiling fans, doors, etc., can be dropped off at:

Habitat for Humanity ReStore
4933 West Lane
Stockton, CA 95210
(209) 465-5054
email: mhuber@sjchabitat.org
http://www.sjchabitat.org

The ReUse People
9235 San Leandro Street
Oakland, CA 94603
(510) 383-1983
(888) 588-9490
thereusepeople.org
