River Bluff Reservoir Tank & Pump Station Project

Traffic Advisory;

The purpose of this letter is to inform you that Garney Construction, in partnership with the City of Ceres, will begin work on water main connections at Mitchell & Hatch Road intersection. The work will be performed during night hours from **8:00 PM through 5:00 AM**. Message board signs are placed in various locations alerting commuters in advance of street closure. The project will effect some traffic delays due to lane shifting and lane closures during construction. Detour signs will be posted each night and taken down every morning. See attached traffic control plan. We ask the commuters to expect delays follow signage and slowdown through the construction zone. We apologize for this inconvenience. The timing of this project will be starting **Sunday night February 6th through Thursday February 10th, 2022**.

Should you have specific concerns or questions about the project, please contact the City of Ceres Engineering staff or the general contractor listed below:

Sam Royal, City Project Manager

209-538-5617

Clint Gust, Garney Construction

775-813-1848

Kevin Downs, Garney Construction

925-724-9493

Garney Construction, in partnership with the City of Ceres, is committed to building this project in a safe and timely manner. Every effort will be made to minimize traffic delays and commute time during construction.

The City of Ceres would like to thank you in advance for your patience and cooperation during this project.

GARNEY: P18-020 RIVER BLUFF RESERVOIR COMPILED
