Daniel A. Martinez, District 4

The Central Valley not only provides food for our communities; we also lead and feed the world in agriculture. For that very reason, Sacramento and Washington need to recognize and understand our needs and value our contributions. I have the ability to establish new and continued relations as we face a new era. As your Stanislaus Council of Government's chair, and with this decision-making body, I will advocate for our region and do the important work that this organization has done and will do for years to come. Collectively, we can accomplish this.

Sincerely,

A handwritten signature in blue ink, appearing to read "Javier Lopez", with a long, sweeping flourish extending to the right.
